MCBE Course-Embedded Assessment (CEA) Model

Theory: use processes already in place for program CEA

All professors used grades

Develop assessments based on learning objectives

Meet with coordinator to discuss assessment plan

Implement assessment before end of the semester and submit data to coordinator

Set expectations for levels of student performance (i.e. Needs Improvement, Good, Excellent)

Submit raw data and demographics to AC

Analyze data and write reports

Report data to dept, and committees with recommendations for continuous improvement

Make a plan for closing the loop with follow-up actions

AC & AD* Coordinators and faculty work together

AC and Coordinators

* AC=assessment coordinator, AD= Associate Dean
