2016-17 informal info session
Pre-departure Preparations
We have projected $570 for individual meals and expenses. This is a rather frugal budget. Actual costs are likely to vary greatly by student.

- Make a budget by city
  - It doesn’t have to be rigid, but think about how much you are spending at any point in time.
  - It’s an aid to manage your funds and to decide whether you want to do something now instead of later.
Many students do not have a problem accessing their money while abroad. There are some steps to help ensure you will have access to your money while abroad:

1. Be sure to tell your bank that you will be going abroad and tell them for how long.
2. Make sure you have an ATM card with a 4 digit pin.
Money & Banking

Other money tips:

– Cash is still king – meaning that many countries do not accept credit like we do here in the US.

– Be sure to factor in exchange rates when withdrawing money from abroad.

– Check with your bank to know about any fees they will be charging for international transactions.

– Travelers checks are not easy to cash abroad.

– Only exchange money at a legitimate currency exchange establishment.
Practical Matters

• You must have a valid passport to leave from and return to the United States.

• A visa is an immigration document that gives you permission to enter a country for a specific purpose and for a specified period of time.

• If you are a DACA (Deferred Action for Childhood Arrivals) student, let me know ASAP
Practical Matters

The USA operates on 110 volts. Most of the rest of the world operates on 220 volts. In order to use your electrical appliances in most foreign countries, you will need to use converters and adapters.

**Note:** Most modern technological devices, such as laptops and cell phone chargers, have dual voltage, so you most likely will not need a converter for such things. You may only need the adapter to plug it into the wall. Adapter may need a three prong for laptop.
Practical Matters

• You are adults
• Europe is exotic
• True love can wait three more weeks
Practical Matters

• Our election was rather contentious.
• Rest of the world may have paid more attention than we did.
• Inauguration is on January 20.
• You may be asked about things.
• Have response beyond “I don’t know” prepared.
Practical Matters

• Meeting places and contacts
  – Let’s agree on an app to keep in contact
  – We will establish meeting spots in each city
  – Goal is not to monitor you

Smart Traveler Enrollment Program (STEP)

The Smart Traveler Enrollment Program (STEP) is a free service provided by the U.S. Government to U.S. citizens who are traveling to, or living in, a foreign country.

https://step.state.gov/step/
Most Common Issues Involve:

Be aware that whenever a serious incident occurs to a CSU student abroad, nine times out of ten, one of these is a leading factor:

- Alcohol or other chemical recreation...
- Late at night...
- All alone...

Alcohol diminishes your ability to make good decisions. Avoid doing activities alone or late at night if you can do them with friends or during the day.
Drug Policy

The University expects all students and student groups to comply with all local, state and federal laws. It is the responsibility of each individual to be aware of, and abide by, all federal, state, and local ordinances and university regulations. Current laws provide for severe penalties for violations which may result in criminal records.

UPS 330.231
Violation of Drug Policy

Student involvement in the manufacture, use, possession, distribution or sale of illegal drugs or the misuse of any legal drug or the use of other substances in a manner which is a threat to health or safety is a concern to the University. Such behavior may subject a student to disciplinary action by the University. Dependent upon the nature of the violation, University sanctions may include but are not limited to educational intervention, reparations, suspension or expulsion aside from or in addition to prosecution under applicable state and federal laws. University action may be taken whether or not independent action is taken by civil authorities.
Alcohol Abuse

You are required to adhere to the alcohol laws in the country you will be studying in.

If alcoholic beverages are used at all, they should be used in moderation, and that the conduct of students in recognized living organizations shall at no time be such that the orderly running of these organizations is disrupted. - UPS 330.232
Academics
Academic Success

• Expectations
  – This is a study abroad program
  – Grades earned abroad WILL be calculated into your cumulative GPA
  – No Pass/Fail or Credit/No Credit
  – The Study Abroad Office cannot change grades or interfere with academics in any way
Academic Dishonesty

Academic dishonesty includes but is not limited to cheating on examinations or assignments, unauthorized collaboration, plagiarism, falsification/fabrication of university documents, any act designed to give unfair academic advantage to the student (such as, but not limited to, submission of essentially the same written assignment for two courses without the prior permission of the instructor), assisting or allowing any of these acts, or the attempt to commit such acts. – UPS 300.021
Etiquette
Etiquette

• Be Polite
• Always say “Bonjour” and “Merci” in France.
• Use “Vous” form of 2nd person
• To extent possible, attempt the local language.

  – Are bitten or scratched by an animal
  – Have been in a car accident
  – Have been seriously injured
  – Are sexually assaulted
Mental Health

• Traveling or studying overseas is not a cure for health conditions such as depression or attention deficit disorder.

• In fact, culture shock, language barriers, and homesickness can deepen isolation or depression.
Mental Health

- Before traveling, create a workable plan for managing your mental health while abroad.
- If you have a medical or psychological condition requires treatment while abroad, discuss this with your doctor. Study abroad is not the time to experiment with not taking your medicine or mixing alcohol with medicine.
- Research the social culture of your destination to learn about how mental illnesses are viewed.
- If currently receiving mental health services find out if those services and/or medication are available at your destination.
- Consider the support system you’ll have in place while abroad.
