B.A. in Business Administration - Finance Concentration - Financial Planning

March 20-27, 2018 CFP® Certification Examination Statistics

Report Generation Date: 6/7/2018

CFP Board is pleased to provide you with a report of your program's performance statistics for the March 2018 administration of the CFP® Certification Examination. Statistics for your program are provided in comparison to the national statistics.

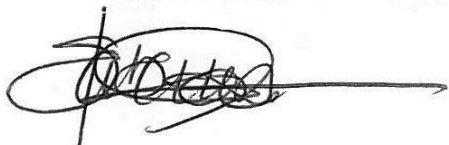

This report includes data for the three most recent exam administrations.

March 2012 represented the first administration of the CFP® Certification Examination based upon the eight Job Task Domains defined by CFP Board's 2009 Job Analysis Study. Performance on the March 2012 exam (and subsequent exams) is not directly comparable to performance on previous exams that were based upon a different exam blueprint and cut score. Also, in reports prior to March 2012 cumulative statistics included data from all exam administrations since November 2006, which represented the time period since the exam was last revised. Cumulative statistics will begin fresh with the March 2012 exam and will continue to accrue over the next several years, until the next revision to the exam.

Institutions with more than one registered program will receive a separate report for each program.

This information is provided for internal use only, to help you evaluate how well your program is meeting its objectives.

Should you have any questions, please feel free to contact us at examinations@CFPBoard.org or 1-800-487-1497.
